EDUCATION

Bachelor of Computer Applications
Sushant University (8.2 CGPA)
2022 - 2025

Highschool
Gulab Memorial College (65%)
2020 - 2022

PROJECTS

- Innova
- SEO-Website
- NewPortfolio
- Additional Projects
- I have developed a range of other projects across cybersecurity ,AI/ML and web development. With a total of 25 repositories on my GitHub profile, these projects include various tools, scripts, and applications that demonstrate my technical skills and passion for secure software development.

EXPERTISE

- Management Skills
- Digital Security
- Negotiation
- Critical Thinking
- Web Development
- Mentorship & Collaboration
- Communication Skills

LANGUAGE

- English
- Hindi

SUMMARY

Dedicated final-year BCA student in Cybersecurity with hands-on experience in both cybersecurity and software development. Passionate about empowering individuals to enhance their technical skills and reach their full potential. Known for a friendly, approachable demeanor and strong communication skills that create a supportive learning environment. Highly adaptable and proactive, I excel at simplifying complex cybersecurity concepts to make them accessible for peers and aspiring professionals. Committed to guiding learners through real-world cybersecurity challenges with patience, enthusiasm, and a practical, academic perspective.

WORK EXPERIENCE

Indoeuropeans   2025 (Sept-Oct))

- Contribute to the Smarter Citizenship (Prarang) platform by supporting technology-driven initiatives that improve digital engagement and user experience.
- Assist in developing and maintaining technical solutions aligned with the project's goals, ensuring smooth functionality and efficient performance.
- Collaborate with the team to analyze requirements, troubleshoot issues, and support ongoing enhancements within the Prarang technology ecosystem.
- Stay updated with evolving tools, technologies, and best practices to support the continuous improvement of Prarang's digital products.
- Provide support in documenting technical processes, coordinating with cross-functional teams, and ensuring timely execution of project tasks.

JhaMobi Tech   2024 (Aug- Dec)
Cybersecurity Mentor

- Develop and deliver engaging content on cybersecurity fundamentals, best practices, and real-world applications.
- Offer guidance on certifications, career paths, and professional growth opportunities within the cybersecurity field.
- Stay updated on the latest cybersecurity trends and incorporate current threat intelligence into training sessions.
- Provided guidance and recommended coping mechanisms for youth dealing with difficult issues.

Nullclass   2024(Aug-Nov)
Cybersecurity Intern

- It was a cybersecurity paid internship where I gained hands-on experience using industry-standard tools. I conducted vulnerability assessments with scanners like Nessus, OpenVAS, and Burp Suite; implemented security measures by configuring firewalls and endpoint protection systems; and monitored network traffic using Wireshark, Splunk, and the ELK Stack. Additionally, I responded to incidents through SIEM tools such as IBM QRadar, collaborating remotely to secure client systems and ensuring compliance with best practices.

ADDITIONALS

- NSS 2023-24 Student Leader, Volunteering.
- Blaze VII -2023 Student Volunteer, March past Leader 2023, **Gold Medal for March past & for cricket & chess.**
- Blaze VIII -2024 Student Volunteer, **University Sports leader**, March past Leader 2024, Gold Medal for March past, Gold medal for NSS, **Gold medal for Leading March past.**
- **NSS University President from 2023 to 2025.**
- Got **7th rank in India** in Sunstone Summer Hackathon.
- Won and become finalist in several Hacathons.
